MODEL LEGISLATION

AN ACT CONCERNING NONDISCRIMINATION IN ACCESS TO ORGAN TRANSPLANTATION.

Section 1. Legislative Intent.

The Legislature finds that:

1. A mental or physical disability does not diminish a person’s right to health care;

2. The “Americans with Disabilities Act of 1990” prohibits discrimination against persons with disabilities, yet many individuals with disabilities still experience discrimination in accessing critical health care services;

3. Individuals with mental and physical disabilities have historically been denied life-saving organ transplants based on assumptions that their lives are less worthy, that they are incapable of complying with post-transplant medical regimens, or that they lack adequate support systems to ensure such compliance;
4. Although organ transplant centers must consider medical and psychosocial criteria when determining if a patient is suitable to receive an organ transplant, transplant centers that participate in Medicare, Medicaid, and other federal funding programs are required to use patient selection criteria that result in a fair and non-discriminatory distribution of organs; and

5. [State] residents in need of organ transplants are entitled to assurances that they will not encounter discrimination on the basis of a disability.

Section 2. Definitions.

1. **Disability.** The term “disability” shall have the same meaning set forth in the Americans with Disabilities Act Americans with Disabilities Act of 1990 (ADA), as amended by the ADA Amendments Act of 2008, at 42 U.S.C. § 12102.

2. **Auxiliary aids and services.** The term “auxiliary aids and services” includes
a. qualified interpreters or other effective methods of making aurally
delivered materials available to individuals with hearing
impairments;

b. qualified readers, taped texts, or other effective methods of making
visually delivered materials available to individuals with visual
impairments;

c. provision of information in a format that is accessible for individuals
with cognitive, neurological, developmental, and/or intellectual
disabilities;

d. provision of supported decisionmaking services; and

e. acquisition or modification of equipment or devices;

f. other similar services and actions.

3. **Qualified individual.** The term “qualified individual” means an
individual who, with or without the support networks available to them,
provision of auxiliary aids and services, and/or reasonable modifications
to policies or practices, meets the essential eligibility requirements for
the receipt of an anatomical gift.

4. **Reasonable modification.** The term “reasonable modifications to policies
or practices” may include:
a. Communication with individuals responsible for supporting an individual with post-surgical and post-transplantation care, including medication;

b. Consideration of support networks available to the individual, including family, friends, and home and community-based services, including home and community-based services funded through Medicaid, Medicare, another health plan in which the individual is enrolled, or any program or source of funding available to the individual, in determining whether the individual is able to comply with post-transplant medical requirements;

5. **Anatomical gift.** The term “anatomical gift” means a donation of all or part of a human body to take effect after the donor’s death for the purpose of transplantation or transfusion.

6. **Organ transplant.** The term “organ transplant” means the transplantation or transfusion of a part of a human body into the body of another for the purpose of treating or curing a medical condition.

7. **Supported decisionmaking.** The term “supported decisionmaking” includes use of a support person or person(s) in order to assist an
individual in making medical decisions, communicate information to the individual, or ascertain an individual’s wishes, including:

a. Inclusion of the individual’s attorney-in-fact, health care proxy, or any person of the individual’s choice in communications about the individual’s medical care;

b. Permitting the individual to a person of their choice for the purposes of supporting that individual in communicating, processing information, or making medical decisions;

c. Provision of auxiliary aids and services to facilitate the individual’s ability to communicate and process health-related information, including use of assistive communication technology;

d. Provision of information to persons designated by the individual, consistent with the provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA), 42 U.S.C. § 1301 et seq., and other applicable laws and regulations governing disclosure of health information;

e. Provision of health information in a format that is readily understandable by the individual;
f. If the individual has a court-appointed guardian or other individual responsible for making medical decisions on behalf of the individual, any measures to ensure that the individual is included in decisions involving his or her own health care and that medical decisions are in accordance with the individual’s own expressed interests.

8. **Covered entity.** The term “covered entity” means:

   a. Any licensed provider of health care services, including licensed health care practitioners, hospitals, nursing facilities, laboratories, intermediate care facilities, psychiatric residential treatment facilities, institutions for individuals with intellectual or developmental disabilities, and prison health centers; or

   b. Any entity responsible for matching anatomical gift donors to potential recipients.

**Section 4. Discrimination prohibited.**

1. A covered entity shall not, solely on the basis of a qualified individual’s mental or physical disability:

   a. Deem an individual ineligible to receive an anatomical gift or organ transplant;
b. Deny medical and related services related to organ transplantation, including evaluation, surgery, counseling, post-operative treatment and services;

c. Refuse to refer the individual to a transplant center or other related specialist for the purpose of evaluation or receipt of an organ transplant;

d. Refuse to place an individual on an organ transplant waiting list, or placement of the individual at a lower-priority position on the list than the position at which he or she would have been placed if not for his or her disability; or

e. Decline insurance coverage for any procedure associated with the receipt of the anatomical gift, including post-transplantation care;

2. Notwithstanding paragraph (1), a covered entity may take an individual’s disability into account when making treatment and/or coverage recommendations or decisions, solely to the extent that the physical or mental disability has been found by a physician or surgeon, following an individualized evaluation of the potential recipient, to be medically significant to the provision of the anatomical gift. The provisions of this section shall not be deemed to
require referrals or recommendations for, or the performance of, medically inappropriate organ transplants.

3. If an individual has the necessary support system to assist the individual in complying with post-transplant medical requirements, an individual’s inability to independently comply with those requirements shall not be deemed to be medically significant for the purposes of paragraph (2).

4. A covered entity shall make reasonable modifications in policies, practices, or procedures, when such modifications are necessary to make services such as transplantation-related counseling, information, coverage, or treatment available to qualified individuals with disabilities, unless the entity can demonstrate that making such modifications would fundamentally alter the nature of such services;

5. A covered entity shall take such such steps as may be necessary to ensure that no qualified individual with a disability is denied services such as transplantation-related counseling, information, coverage, or treatment because of the absence of auxiliary aids and services, unless the entity can demonstrate that taking such steps would fundamentally
alter the nature of the services being offered or would result in an undue burden;

6. A covered entity shall otherwise comply with the requirements of Titles II and III of the Americans with Disabilities Act and ADA Amendments Act of 2008.

7. The provisions of this section shall apply to each part of the organ transplant process.

Section 5. Enforcement.

1. The remedy for violations of this Act shall be the same as those available under Titles III and III of the Americans with Disabilities Act, 42 U.S.C. §§ 12131-12189.

2. The court shall accord priority on its calendar and expeditiously proceed with an action brought to seek any remedy authorized by law for purposes of enforcing compliance with the provisions of this Act.

Section 6. Effective Date.

This Act shall take effect immediately and shall apply to all jurisdictions in this state.
